

Reigate & Banstead Borough Council Brownfield Register Report

December 2017

Reigate & Banstead BOROUGH COUNCIL Banstead | Horley | Redhill | Reigate

1. Introduction

- 1.1. The Brownfield Register has been prepared in line with the Department for Communities and Local Government Brownfield Land Registers Data Standard: Preparing and Publishing a Register¹ and the Town and Country Planning (Brownfield Land Register) Regulations 2017². It will be updated annually.
- 1.2. Part 1 of the 'brownfield land register' has been prepared as a spreadsheet to conform with the required national standards³. It comprises all brownfield sites that Council officers have assessed as appropriate for residential development. The Council is not currently intending to prepare a Part 2 of this brownfield land register, as it does not intend to grant "permission in principle" for any residential development.
- 1.3. This report includes the same information as the "register", but has been prepared in order to provide the same information in a more accessible format.
- 1.4. The table below provides information on the data fields.

| Data Field | Information |
|--------------------|--|
| Organisation URI | The local authority's identification. |
| Organisation Label | The name of the local authority. |
| Site Reference | The reference of the site in the Brownfield Land Register. |
| Site Name | Address of site. |
| Address | |
| Coordinate | Reigate & Banstead Borough Council has used the |
| Reference System | OSGB36 coordinate reference system. |
| GeoX | X-coordinate |
| GeoY | Y-coordinate |
| Hectares | Size of site in hectares |
| Ownership status | Owned by a public authority |
| | Not owned by a public authority |
| | Mixed ownership (1 or more landowner) |
| | Unknown ownership |
| Deliverable | Sites have been marked as deliverable where there is a |
| | reasonable prospect that residential development will |
| | take place on the land within 5 years. |
| | This has been informed by the 2017 Housing and |
| | Economic Land Availability Assessment. |
| Planning status | Permissioned |
| | Not permissioned |

Table 1 Data Fields

| | Pending decision |
|--|--|
| Permission Type | Full planning Outline Reserved matters approval Permission in principle Technical details consent Planning permission granted under an order Prior Approval Other |
| Permission date | Date that the planning permission was approved (where relevant). |
| Planning history | Where applicable, link to planning history on the Council's website. |
| Minimum net number of dwellings | The number of homes planning permission has been granted for; or The minimum number of the range expressed in "NetDwellingsRangeFrom"; or An estimate based on a density calculation undertaken by the authority |
| Development description | Description of any proposed housing development |
| Non housing development | Description of any proposed non-housing development, including scale (including for sites that have planning permission). |
| Net dwellings range from Net dwellings range to | The minimum net number of dwellings which, in the authorities opinion, the land is capable of supporting. Completed where the Development Description field has not been completed. |
| Hazardous substances | Where it is known that a site has hazardous substances, a link has been provided to the information. |
| Notes First added date | Further information This is the date that the site has been added to the Brownfield Land Register. Given that this is Reigate & Banstead's first Brownfield Land Register, all sites have been added 31 st December 2017. |
| Last updated date | This will be the date that sites are added to the Brownfield Land Register. Given that this is Reigate & Banstead's first Brownfield Land Register, no sites will have an updated date. |
| HELAA Reference | Where applicable, this is the reference of the site in the Housing and Economic Land Availability Assessment. |

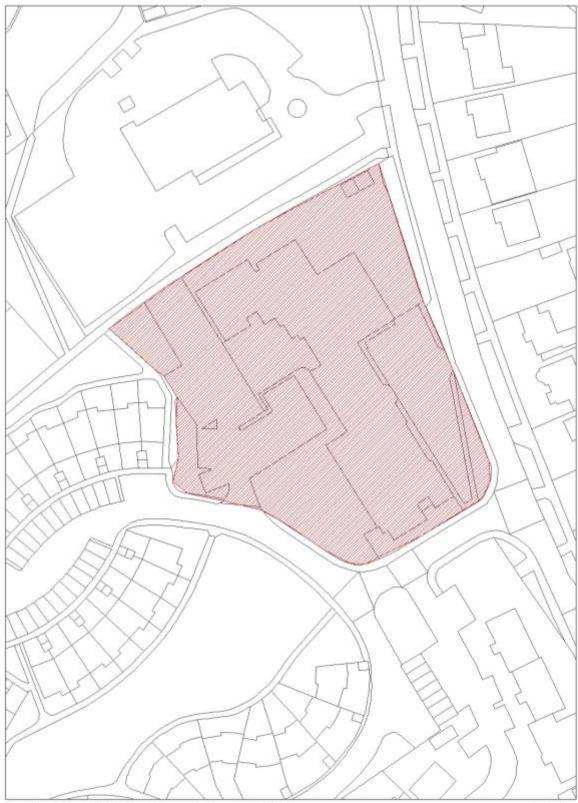

In line with national guidance, to be included in this register, sites must be: 1.5.

- •
- "Suitable" for residential development. This means that: Land has planning permission for housing or housing-led development; or

- Land has been allocated for housing or housing-led development in the Local Plan; or
- A site is considered to be appropriate for housing/ housing-led development by the Council
- "Available" for residential development: there is no impediment to development in terms of either ownership issues or legal constraints on the land
- "Achievable": the land is likely to be developed within 15 years of being on the register
- Be at least 0.25ha or capable of supporting at least 5 dwellings (unless the local authority decides to adopt a lower threshold)
- Meet the definition of previously developed land in the National Planning Policy Framework, given in full below.
- 1.6. <u>Previously developed land:</u> Land which is or was occupied by a permanent structure, including the curtilage of developed land (although it should not be assumed that the whole of the curtilage should be developed) and any associated fixed surface infrastructure. This excludes: land that is or has been occupied by agricultural or forestry buildings; land that has been developed for minerals extraction or waste disposal by landfill purposes where provision for restoration has been made through development control procedures; land in built-up areas such as private residential gardens, parks, recreation groups and allotments; and land that was previously-developed but where the remains of the permanent structure or fixed structure have blended into the landscape in the process of time.
- 1.7. Please note,
 - The identification of land with potential for housing development in the Brownfield Land Register does not imply that the Council will grant planning permission.. All planning applications will continue to be determined against the development plan and material planning considerations, including the National Planning Policy Framework.
 - The inclusion of land for residential development in the Brownfield Land Register does not preclude it for being developed for other uses
 - The exclusion of sites from the Brownfield Land Register (either because they were discounted or not identified) does not preclude the possibility of planning permission being granted on excluded sites for residential development.
 - The identified site boundaries are based on the best information available at the time of the study. The Brownfield Land Register does not limit an expansion or contraction of these boundaries for the purpose of a planning application or future allocation through the Local Plan process.
 - The estimation of housing potential is based on the best information available at the time of writing. The housing potential indicated does not preclude densities being increased or decreased on sites, subject to further information and assessment at such time as a planning application is made.
 - The Council does not accept liability for any factual inaccuracies or omissions in the Brownfield Land Register. It should be acknowledged that there may be additional constraints on sites that have not been identified.

Issues may arise during the planning application process that were not/ could not have been foreseen at the time of the publication of the Brownfield Land Register. Applicants are advised to carry out their own analysis of site constraints for the purpose of the planning application and should not rely on the identification of the site within the Brownfield Land Register.

| Deliverable | No |
| Planning status | Not permissioned |
| Permission type | N/A |
| Permission date | N/A |
| Planning history | http://planning.reigate-banstead.gov.uk/online- |
| | applications/simpleSearchResults.do?action=firstPage |
| Minimum net | 150 |
| number of | |
| dwellings | |
| Development | N/A |
| description | |
| Non housing | The site would be most suited to delivering mixed-use development |
| development | including bulky goods retail and residential. |
| Net dwellings | 150 |
| range from | |
| Net dwellings | |
| range to | |
| Hazardous | N/A |
| substances | |
| Notes | Borough Local Plan (2005) policy EM1A resists the loss of |
| 110100 | employment uses within areas identified for employment. |
| | The site in its current state is not considered to provide a fitting |
| | approach to the town centre gateway along the important approach |
| | route. |
| | The site also does not currently maximise the sites capacity |
| | potential. |
| | Redevelopment of the site would need to secure the relocation of |
| | the active uses to suitable alternative premises elsewhere in the |
| | Borough. |
| | The site has been identified in the Regulation 19 Development |
| | Management Plan for mixed-use development. |
| | |

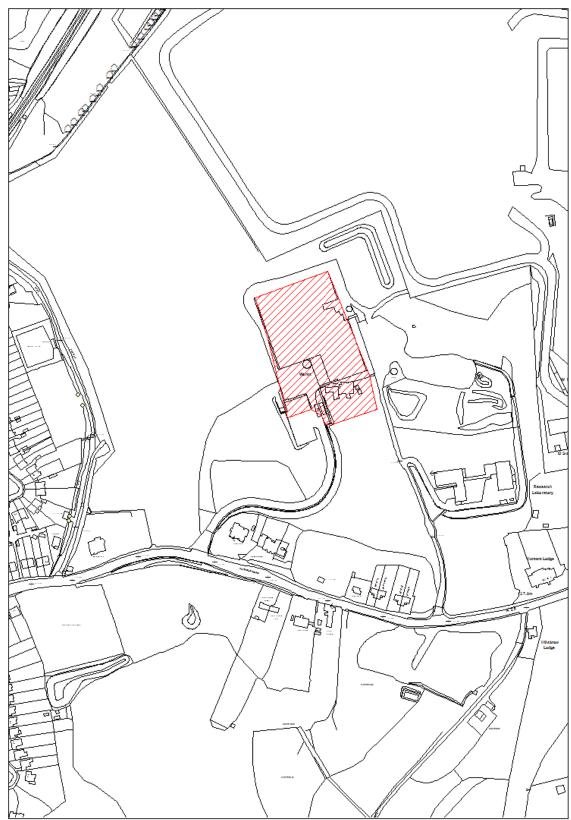

| | Development of the site for retail uses would be dependent upon a full assessment of the impact on the town centre. The site partially falls within Flood Zones 2 and 3. The Redhill Brook is partially culverted under the site. |
