## Why are we reviewing?

The Electoral Administration Act 2006, as amended, introduced a duty on all local authorities in Great Britain to review their polling districts and polling places at least once every five years. Reviews must be started and completed within the period of 16 months that starts on 1 October of every fifth year after 2013. Under section 18C of the Representation of the People Act 1983, the next compulsory review must be undertaken within a 16-month window between 1 October 2023 and 31 January 2025.

The Council concluded an [interim review at its meeting on 18 January 2024](#) following the implementation of the new Parliamentary constituencies in 2023, in readiness for the UK General Election in July 2024.

In addition, following the Boundary Commission for England's review of Surrey County Council boundaries in 2023-24, a review of polling districts and places is now being conducted to ensure that all electors have reasonable facilities for voting in elections at the forthcoming County Council elections in 2025.

To view further details about the Surrey County Council Boundary Review, see the [Local Government Boundary Commission for England](#).

This Polling Place and District Review includes:

1. Polling districts, which are the areas created by the division of wards, into smaller sections. Within each polling district a polling place can be determined which is convenient to electors.
2. Polling places, which are the locations, normally the buildings, in which polling stations are sited.

A copy of the [Notice of Review can be found here: Notice of Polling Districts and Polling Places Review](#) (PDF).

## Consultation

A public consultation on these initial proposals starts on 4 November 2024 and ends on 16 December 2024. This consultation paper will be published on the Council's website. It will also be sent to Councillors, Members of Parliament, local political parties, and local people and stakeholders with expertise in disability and accessibility.

An [interactive map of these proposals](#) is available to view on our website. Please note, there may be small variances between the electorate statistics published within this report (September 2024) and the electorate count within the interactive map (July 2024).

All representations will be considered and responded to by the Council. They will be published in the final report with our final recommendations. The Council will consider the final recommendations and make a final decision in January 2025.

The agreed polling districts will then be passed to the Electoral Registration Officer for publication in the revised Register of Electors. This register will be published on 1 February 2025.

Comments on the initial proposals may be submitted during the consultation period via email to [elreg@reigate-banstead.gov.uk](mailto:elreg@reigate-banstead.gov.uk), or by post to Electoral Services, Town Hall, Castlefield Road, Reigate, Surrey, RH2 0SH.

## Timetable for the review

As part of the review there will be a period of public consultation that runs for a 6-week period between 4 November 2024 until 16 December 2024.

## How is the review conducted?

Certain factors are taken into account when considering the suitability of the current polling districts and polling places and in identifying potential new ones.

### Polling districts

The following should be considered as part of the assessment of the suitability of polling district boundaries:

- Do the polling districts follow the different electoral boundaries (such that the Returning Officer can manage the different combinations of elections and referenda within each geographical area), such as parish and town council wards, borough wards, county divisions and parliamentary constituencies (both current and future)? For instance, a borough ward may overlap with multiple town or parish council wards, and therefore the division of polling districts within that borough ward must allow each combination of those polls to take place together, if required.
- Are the boundaries well-defined? For example, do they follow the natural boundaries of the area? If not, is it clear which properties belong in the polling district?
- Are there suitable transport links within the polling district, and how do they relate to the areas of the polling district that are most highly populated?
- Are there any obstacles to voters crossing the current polling district and reaching the polling place e.g., steep hills, major roads, railway lines, rivers?

## Polling places

There are a number of factors that will need to be considered when reviewing existing polling places or when assessing new polling places, including:

| Factor               | Consideration  |
|----------------------|--|
| <b>Location</b>      | Is it reasonably accessible within the polling district?<br>Does it avoid barriers for the voter such as steep hills, major roads, rivers, etc.?<br>Are there any convenient transport links?  |
| <b>Size</b>          | Can it accommodate more than one polling station if required?<br>If multiple polling stations are required, is the polling place capable of accommodating all voters and staff required to provide a good service to voters?<br>Is the size sufficient to provide necessary private areas or privacy screens for photographic identification checks?<br>Is the size big enough to ensure the flow of voters and reduce the risk of congestion and queues even where there is a high turnout? |
| <b>Availability</b>  | Is the building readily available in the event of any unscheduled elections?<br>Is there any possibility that the building may be demolished as part of a new development?   |
| <b>Accessibility</b> | Is the building accessible to all those entitled to attend the polling place?<br>Can the building accommodate any equipment provided to support disabled voters?   |

## Polling stations

When assessing the suitability of a room or area for use as a polling station, the (A)RO should consider how the size and layout would allow for the most effective throughput of voters taking into consideration the length of time it may take to check voters' photographic ID whilst ensuring the flow of voters and reducing the risk of congestion and queues. Those instances where there is a high number of electors in the polling station at any one time on polling day should also be considered.

Each polling station should be designed to provide suitable conditions:

- for the elector to show their photographic identification in private if requested as well as vote in private
- for staff to conduct elections in an efficient and effective manner and
- for those entitled to observe the voting process to do so without compromising the secrecy of the ballot
- avoid the use of temporary buildings.

## Use of schools

The Returning Officer's policy is to avoid the use of schools as polling places where practicable. Where no suitable alternative is available, the Returning Officer is entitled to use, free of charge, schools maintained or assisted by a local authority as well as those schools that receive grants made out of moneys provided by Parliament.

This includes academies and free schools.

## What can't be considered?

- Further changes to parliamentary constituency, borough/town/parish ward and county divisional boundaries. This review is concerned only with the arrangement of polling places and polling districts; however, it must have regard to the arrangement of those other electoral boundaries and ensure the polling district boundaries align with those for the proper conduct of elections and referenda.
- Community identity – whilst this is a relevant consideration for an electoral boundary review (e.g. when making changes to county divisions, parliamentary constituencies and borough / parish ward boundaries), it is not relevant for the purposes of a polling place and district review, which is an incidental process to ensure that the arrangement of polling places and districts are:
  - Convenient for voters; and,
  - Efficient for the Returning Officer to conduct elections according to those boundaries.

## Annex 1: Summary of initial polling district proposals

| County Division (revised)             | Polling Districts (revised)              | Electorate (Sept 2024) | Proposed change(s) to polling district(s) and/or polling place(s)   | Reason(s)  | Impact of recommended change(s)  |
|---------------------------------------|--|------------------------|---|--|--|
| Banstead, Woodmansterne and Chipstead | BAN1, BAN2, BAN3, CKW1, CKW2             | 10,682                 | 1. None.  | There are no changes to this division arising from the County Boundary Review requiring realignment of polling districts; and, existing polling place arrangements are considered to be suitable.  | None.  |
| Earlswood and Reigate South           | EWB4, EWB5, SPW1, SPW2, SPW3, SPW4, SPW5 | 10,343                 | 2. To merge SPW1 and SPW2 into one polling district, named 'SPW1'; and, to renumber all subsequent polling districts. | <p><b>Local choice: administrative changes recommended by the Returning Officer.</b></p> <p>The County Boundary Review moved SPW2 from 'Reigate' to the 'Earlswood and Reigate South' division.</p> <p>SPW2 contains only approximately 171 electors, and as there is no longer a county boundary dividing SPW1 and SPW2, it is proposed to merge these two polling districts into one, named 'SPW1'.</p> <p>Reigate Park Church is used as a 'double station', wherein the register is split equally between two polling stations, ensuring that the Returning Officer complies with the Electoral Commission's electorate ratios for each polling station.</p> <p>Consolidating the number of polling districts, except where required by dividing electoral boundaries, enables greater equality to be achieved between the electorates allocated to each polling station at a polling place; and, reduces the number of separate registers to be published.</p>  | <p><b>No impact on electors arising from these recommendations.</b></p> <p>Electors within the SPW1 and SPW2 districts ordinarily vote at the Reigate Park Church, which is not recommended to change.</p> <p>The combined electorate within the newly merged 'SPW1' polling district will increase to approximately 3,920 electors.</p> <p>The impact of these changes on the administration of elections will improve the balance of the electorate allocated between the two polling stations located at the Reigate Park Church, as one polling district register can be split evenly.</p>                     |
|                                       |  |                        | 3. To merge SPW3, SPW4 and SPW5 into one polling district, named 'SPW2'.  | <p><b>Local choice: administrative changes recommended by the Returning Officer.</b></p> <p>The County Boundary Review moved SPW4 from 'Redhill West and Meadvale' to the 'Earlswood and Reigate South' division.</p> <p>SPW4 contains only approximately 26 electors, and as there is no longer a county boundary dividing SPW3 and SPW4, it is proposed to merge these polling districts, together with SPW5, into one polling district named 'SPW2'.</p> <p>SPW3, SPW4, and SPW5 are all currently designated to the same polling place (Woodhatch Community Centre) which is used as a 'double station' supporting two polling stations within one place, however there is an imbalance between the electorates assigned to each polling station. SPW3 contains approximately 920 electors, SPW4 contains approximately 26 electors, and SPW5 contains approximately 1,785 electors.</p> <p>It is therefore recommended that these three polling districts be combined into one polling district so that the register can be split equally between two polling stations at the Woodhatch Community Centre.</p> <p>Consolidating the number of polling districts, except where required by dividing electoral boundaries, enables greater equality to be achieved between the electorates</p> | <p><b>No impact on electors arising from these recommendations.</b></p> <p>Electors within the SPW3, SPW4 and SPW5 districts ordinarily vote at the Woodhatch Community Centre, which is not recommended to change.</p> <p>The combined electorate within the newly merged 'SPW2' polling district will increase to approximately 2,731 electors.</p> <p>The impact of these changes on the administration of elections will improve the balance of the electorate allocated between the two polling stations located at the Woodhatch Community Centre, as one polling district register can be split evenly.</p> |

| County Division (revised)               | Polling Districts (revised)              | Electorate (Sept 2024) | Proposed change(s) to polling district(s) and/or polling place(s)  | Reason(s)   | Impact of recommended change(s)  |
|---|--|------------------------|--|---|--|
|   |  |                        |  | allocated to each polling station at a polling place; and, reduces the number of separate registers to be published.  |  |
|   |  |                        | 4. None  | <p><b>For information only:</b></p> <p>The County Boundary Review moved HRE1 from this division to 'Horley West, Salfords &amp; Sidlow', however this does not require any changes to polling district boundaries.</p> <p>The County Boundary Review moved MSJ5 from this division to 'Redhill West &amp; Meadvale, however this does not require any changes to polling district boundaries.</p>   | <b>None</b> – these changes were determined as part of the County Boundary Review.   |
| <b>Horley East</b>                      | HRE3, HRE5, HRC1, HRC2, HRC3             | 10,404                 | 5. To create a new polling district named 'HRE5' comprising of 1-8 Ladbroke Road, Cranbourne Close, 82-86 Oakwood Road, Balcombe Road [3-39A, 4-6A, Grales, Spindlewood, Coleshill, Nunsfield], Chatelet Close, The Dell | <p><b>Statutory requirement: to arrange polling district boundaries according to electoral areas.</b></p> <p>The County Boundary Review moved properties south of Ladbroke Road within the HRE4 polling district from the 'Horley West, Salfords and Sidlow' division into the 'Horley East' division.</p> <p>It is therefore necessary to create a new 'HRE5' polling district comprising of these properties and approximately 160 electors.</p> <p>The County Boundary Review moved HRC1 to this division from 'Horley West, Salfords &amp; Sidlow', however this does not require any change to the polling district boundary for HRC1.</p>   | <p><b>No impact on electors arising from these recommendations.</b></p> <p>The designated polling place for the approximately 160 electors within the new HRE5 district will remain unchanged for all elections, as they ordinarily vote at the Tanyard Barn Community Centre and designating a different polling place for county elections may confuse voters.</p> |
| <b>Horley West, Salfords and Sidlow</b> | HRE1, HRE2, HRE4, HRW1, HRW2, HRW3, HRW4 | 11,489                 | 6. None  | <p><b>Statutory requirement: to arrange polling district boundaries according to electoral areas.</b></p> <p>The County Boundary Review moved HRC1 from this division to the 'Horley East' division, however this does not require any change to the polling district boundary for HRC1.</p> <p>The County Boundary Review moved HRE1 from 'Earlswood &amp; Reigate South' to this division, however this does not require any change to the polling district boundary for HRE1.</p> <p>In addition, the County Boundary Review divided the HRE4 polling district (refer to proposal number 5, above) along Ladbroke Road, with the southern partition moving into the 'Horley East' division and is proposed to be renamed 'HRE5'.</p> | <b>None</b> – these changes were determined as part of the County Boundary Review.   |
